THE FAIR MENDICANT.

AN ENGLISH STORY.

Paul Ventnor was the curate of Bladensburg, with wisdom in his head, and tenderness in his heart, but precious little money in his pocket.

One fine morning as he was coming round the porter's lodge of Foley Hall, he heard a sweet plaintive voice saying—

"For the love of God, help me!" I am starv—"

He raised his head, quite startled out of his equanimity. On the steps sat a young woman. Her cheeks were stained, and her head and shoulders were enveloped in a shawl. That she was suffering was evident, yet she wore neither the dress nor the air of an ordinary mendicant.

He stopped and regarded her for a moment, and then dropped a coin into her outstretched palm. She took from her hand, she did not look up to see if he was young or old, then she was five.

"I can bear no more, my lady. Your brother Edgar has kept his secret well."

She then opened the letter and read as follows:

TEMPLETON PLACE, NOV. 29, 1849.

My Dear Grace.

I have relented. You are an angel, while I am a choleric old fool.

You were right in your estimate of me.

For your sake, I will do all in my power to make amends.

"For the love of God, help me!" I am starv—"

It seems to be certain now that Napoleon is convalescent, but all reports concerning him are received with some doubt; he has really been in great danger, but the fact was concealed as easily as possible. It was stated that he was transacting business with his Ministers and taking his usual exercises when in fact was confined to his bed and allowed to see no one save his physicians. His malady, which is said to be disease of the bladder and adjacent organs, is very similar to that which so recently carried off the Minister of War, Marshall Neil. Wessels, and his state of nervous irritability, doubtless tends to aggravate his disease, on a former occasion, the Emperor having called in a well-known homoeopathic practitioner, said, "I cannot afford to be ill; it is necessary that I should be up again at the risk of a relapse." He wanted, on that occasion, to attend a very important Cabinet Council. It will be understood that this impatience and his preoccupation render the Emperor's condition far more serious, and it is alleged that during the late crisis he several times contemplated the advisability of an abdication.

Judge Lewis Dent was last week, unanimously nominated for Governor of Mississippi by the National Republican or Conservative party of that State. A letter detailing the action of the Convention that nominated him leaves hardly any doubt of his election. The negroes, in large numbers, express their disgust of carpet-bagism, and have decided to support the Conservative ticket. The officers are rather quiet, fearing to show any preference in the absence of positive information, as to which side the administration will take.

Last November General Grant carried California by a majority of five hundred votes. At the late State election, which was held on Wednesday the Democracy succeeded in electing three-fourth of the Legislature. It is a perfect sweep. It is a tornado. It is the beginning of the end. The Democracy will carry all the autumnal elections, including Ohio and Pennsylvania. After this comes the deluge. There are no men now known that the first elections of the year indicate, almost with unerring certainty, the balance of them. The success in California is the forerunner in Ohio, Pennsylvania and New York. Push on the column!

Letter from F. M. Shackelford

Mr. Editor.

Just returned from the Sabbath School Convention at Covington Ky., and the State Teachers at Louisville, both of which I am a member. With a heart full of zeal for the promotion of a cause to which I have given the best years of my life, I beg leave through your columns to say an occasional word.

A terrible thing it would be if the Democracy should abolish some of the taxes which now oppress us. There is one tax, however, which Democracy would not abolish, and that is a tax upon the interest of the bonds. Not being at present imposed, it would be the duty to order its collection. With that tax much of the taxes upon the poorer classes could be dispensed with.

"THE SEVEN."—The death of Mr. Fessenden, of Maine, last week, suggests to a contemporary the fact that most of the seven Republican Senators who voted against the impeachment of Andy Johnson have been singularly unfortunate. Henderson, of Missouri, and Van Winkle of West Virginia, have been suspended and left out in the cold. Fowler, of Tennessee, will probably be superseded by Andy Johnson himself in the coming Senatorial election in that State; Fessenden, of Maine, is dead; and Grimes of Iowa, an invalid, in Paris, it appears has resigned. Only Trumbull, of Illinois, and Ross, of Kansas, remain intact of all the bold and independent seven.—Such is the whirligig of party politics. It whirls me in it, whirls them out but still the world goes.

There seems to be a chance for a lively row between the Mormons and the United States Government. The revenue officers have received instructions to tax the church property of the Mormons, and the many-wives are enraged. It is thought the Mormon officials will not submit, and Brigham now has a chance to execute the threat he made to Senator Trumbull, to put the obnoxious outside of the Territory.

Gen. Sherman has ordered the election in Texas, which was originally fixed for the 30th of November, to be extended through four days, on the suggestion of Gen. Reynolds that a fair election could not be held in one day. The same extension will be given Mississippi if required.

The carpet-bag thieves are filling out in Georgia so there is a hope. The State Treasurer has been sued for swindling, at the instance of the carpet-bagger, Governor Bullock. The Treasurer, in return, charges the Governor with stealing *coins* they both tell the truth.

LA GRANGE

The Baptist Association

The Sulphur Fork Baptist Association held its annual session at La Grange, commencing Tuesday Sept. 11th, 1869, and continuing three days. A very large representation from all the twenty-three churches constituting this Association was in attendance, and the recurrence of the annual gathering brought together many hundred of the more zealous members of the Baptist Church far and near.

Rev. Mr. Berry was re-elected Moderator for I believe the twenty-fourth time in unbroken succession. This compliment so rare in ecclesiastical bodies, is due to Mr. Berry's thorough knowledge of Church business, his suavity and perfect disinterestedness as moderator and his purity of life. I doubt whether any Baptist Association in the State can match this one in the character of its moderator. Dr. Porter of Eminence, an old and experienced minister, was elected clerk. This secured a steady and systematic action of business and a record.

He wanted, on that occasion, to attend a very important Cabinet Council. It will be understood that this impatience and his preoccupation render the Emperor's condition far more serious, and it is alleged that during the late crisis he several times contemplated the advisability of an abdication.

It is not aware that any matter were introduced in the Association of a general nature. Some pretty strong resolutions upon "that admitted and growing, evil Intemperance" were introduced, discussed and adopted by an overwhelming majority. It is felt that so influential a church as the Missionary Baptist, must not stand in the rear rank when such a deadly foe as Intemperance is threatening to overwhelm every barrier of public morality, and your readers will be glad to learn of this set.

The citizens of LaGrange and vicinity will each other in their attention to guests. Most of our fellow townsmen "took in" as many as six, no a few had double the number. And in this wholesale hospitality, so characteristic of Oldham County, every kind family felt the force of the Saviour's precept, "it is more blessed to give than to receive," for never saw LaGrange wear a more cheerful and wholesome expression than it has this week.

The religious exercises have been frequent and interesting. From the stand erected in the Public Square and from the pulpit of the church itself, the average of sermons has been numerous and instructive, although no special revival has followed.

By vote of the association, Dr. Rob Morris of Lagrange, delivered his celebrated lecture upon the Holy Land on Wednesday evening and exhibited the numerous reliques which his peculiar opportunities in Palestine enabled him to collect. Your citizens would do well to secure his services in the delivery of this lecture.
